Completion of Airborne Geophysical Survey

Global Petroleum Limited (LSE AIM:GBP) is pleased to announce, further to the announcement on 7 October 2024, the completion of the Airborne Geophysical Survey at the Project Juno (“Juno”) site.

The Survey is 100% complete with more than 3,900 total line km’s flown. Global expects results of the Geophysical Survey to be available before the end of current quarter.

Hamza Choudhry, CFO of Global Petroleum commented:

“We would like to thank the Airborne Survey team in Western Australia for their efficient and thorough work in completing the survey. We have achieved a significant milestone in Project Juno, and we can now begin the process of analysing the results from the survey. We look forward to the next steps in the project and updating shareholders on this.”
